

Shingle Recycling Centers

Shingle Recycling Facts

- 80% of homes in the US have asphalt shingle roofs
- 10 million tons of shingle tear-offs sent to landfill each year are:
 - 5% of landfill volume
 - Easily recycled into paving
- **Green Building Standards give credits for it...LEED, NAHB, etc.**
- **Cost of disposal to contractors likely to increase**
- **50% of homeowners say that recycling their torn-off shingles has an importance of 8 on a scale of 1-10**

Shingle Recycling Process

Shingles and Asbestos

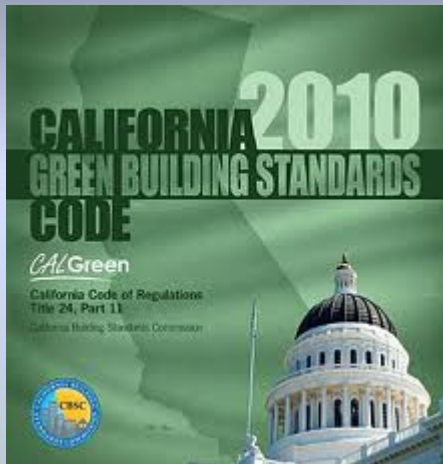

- Small amounts of asbestos fibers were used in shingles as late as 1982
- Asbestos has been detected in roughly 1% of shingles brought to the recycling centers

Metal Recycling

Government Programs

How will Green Building Codes effect contractors?

Government Initiatives

- Political Views on Recycling

Recycling at Deer Park Roofing, Inc
